

The expected journey of prospective delivery centres

Our Parks

Our Parks exists to ensure that easy, barrier free access to quality exercise is available to everyone.

Our Parks aims to;

- Inspire the improved health and wellbeing of local communities.
- Maximise the benefits of using community parks and open spaces.
- Enhance the interaction of individuals and communities.

The workforce who deliver Our Parks sessions are known as Coach Parkers. Coach Parkers are the driving force behind the free, fun, and inclusive fitness-based activities Our Parks deliver across the parks and green spaces in the UK.

Our Parks, UK Coaching and BUCS have partnered together to bring you the opportunity to be a part of the journey of a Coach Parker, by becoming an accredited delivery centre for the 1st 4Sport Level 2 Coach Parker qualification.

Coach Parker Delivery Centres

Delivery centres will consist of a number of BUCS member institutions, who are selected through a competitive expression of interest process. They will provide a learning environment for the practical and assessment element of the Coach Parker course and implement a series of courses throughout 2021-2022, engaging their own student cohort as well as community members to enrol in and complete the Level 2 Coach Parker course.
