The number of points awarded to a team is dependent on their finishing position at an event and the number of teams that take part in the event.

TOU 4.1.2 Competition Points available at an Event The maximum number of competition points available at each event is calculated by multiplying the number of teams that take part by 2. The first placed team will receive the maximum number of competition points. (E.g. in a 16 team regional qualifying event, 32 points will be awarded to the first placed team.) The second placed team will receive 2 points less than the maximum etc. resulting in the last placed team receiving 2 points regardless of the number of teams that take part.

If the tie remains unresolved; the positions will be determined by the margin of tries scored for and against each of them, the team with the highest positive margin being ranked higher in the standings.
